

# CONTENTS

	Page
<b>Introduction</b> .....	1
How to use this handbook.....	2
What is the detector tube method?.....	4
Gastec detector tube technology.....	6
<b>Chapter 1 Gastec Standard Detector Tube System</b> .....	1-1
<b>Gastec Standard Detector Tube System Basic Configuration</b> .....	1-2
Model GV-100S Gas Sampling Pump Kit.....	1-2
Gastec detector tube packages.....	1-2
<b>Gastec Standard Detector Tube System Structure</b> .....	1-4
Gastec standard detector tubes.....	1-4
Model GV-100 Gas Sampling Pump.....	1-5
Model GV-110 Gas Sampling Pump with stroke counter.....	1-5
Single tube.....	1-9
Twin tube.....	1-9
<b>Options for Gastec Standard Detector Tube System</b> .....	1-10
No.721 Tube Tip Holder.....	1-10
Model GV-700 One Hand Operation Adapter.....	1-10
No.350BP-2 Extension Sampling Pole.....	1-10
No.340 Hot Probe and No.345A Hot Probe Holder.....	1-11
No.350A and No.350A-10 Extension Hoses (with No.357 Tube Holder).....	1-11
<b>Simple and accurate measurements with the Gastec Standard     Detector Tube System</b> .....	1-12
1. Preparation.....	1-12
2. Sampling.....	1-13
• Number of pump strokes and sampling time.....	1-13
• Confirming the completion of sampling.....	1-13
3. Reading.....	1-14
• Tips for detector tube reading.....	1-14
Maintenance of Model GV-100 Gas Sampling Pump.....	1-15
Information provided on the label on the detector tube packages.....	1-16
<b>More about Gastec detector tubes</b> .....	1-18
Filling reagents.....	1-18
Detecting reagents.....	1-18
Pretreatment reagents.....	1-18
Gastec detector tube numbers.....	1-20

	Page
Standard sample volume and standard pump strokes . . . . .	1-21
Extension of the measuring range . . . . .	1-21
When the colour change layer does not reach the calibration scale . . . . .	1-21
When the colour change layer exceeds the calibration scale. . . . .	1-21
Accuracy tolerance in detector tube method . . . . .	1-22
Random errors . . . . .	1-22
Systematic errors . . . . .	1-22
Reaction principles and interferences . . . . .	1-23
Interferences in direct reaction type detector tubes . . . . .	1-23
Interferences in compound reaction type detector tubes . . . . .	1-23
Interferences in two-step reaction type detector tubes . . . . .	1-23
Correction for temperature . . . . .	1-24
Influence of temperature . . . . .	1-25
(1) Influence on reaction rate . . . . .	1-25
(2) Influence on physical adsorption. . . . .	1-25
Tube temperature and sample temperature . . . . .	1-25
Correction for humidity . . . . .	1-26
Gastec detector tubes affected by humidity fluctuation . . . . .	1-26
Correction for atmospheric pressure . . . . .	1-26
Storage and disposal of Gastec detector tubes . . . . .	1-27
<b>Tips for measurements.</b> . . . . .	1-28
Sampling in confined places such as tanks or manholes . . . . .	1-28
Inspecting gas leakage . . . . .	1-28
Measurements of concentrations within equipment or pipelines . . . . .	1-29
Measurement timing and frequency . . . . .	1-30
Units of concentrations . . . . .	1-31
<b>Gastec means quality</b> . . . . .	1-32
Quality assurance program at Gastec . . . . .	1-36
Careful planning and development . . . . .	1-36
Enhanced reagent stability . . . . .	1-36
Improved detector tube accuracy . . . . .	1-37
Accurate calibration gas generation . . . . .	1-37
Calibration gas generation methods . . . . .	1-38
Permeation tube method. . . . .	1-38
Diffusion tube method. . . . .	1-39
Dynamic dilution method. . . . .	1-39

	Page
Static dilution method . . . . .	1-39
High pressure gas cylinder method . . . . .	1-39
Gastec quality control at the production and inspection departments . . . . .	1-40
<b>Comprehensive User Services . . . . .</b>	<b>1-42</b>
Information service . . . . .	1-42
Consultation service . . . . .	1-42
Testing service . . . . .	1-42
<b>Summary of Gastec environmental analysis technology . . . . .</b>	<b>1-44</b>
Gas sampling methods . . . . .	1-46
Vacuum method . . . . .	1-46
Injection method . . . . .	1-46
Motor-driven pump method . . . . .	1-46
Diffusion method . . . . .	1-46
Special measurement methods for ground or water pollutant analysis . . . . .	1-46
Boring method . . . . .	1-46
Reagent adding method . . . . .	1-46
Vapour-liquid equilibrium method . . . . .	1-46
Capillary method . . . . .	1-47

## **Chapter 2 Specifications of Gastec Standard**

<b>Detector Tubes . . . . .</b>	<b>2-1</b>
---------------------------------	------------

Explanation of the specification items . . . . .	2-2
--------------------------------------------------	-----

## **Chapter 3 Gastec Applied Detector Tube Systems**

<b>for Gas and Vapour Analysis . . . . .</b>	<b>3-1</b>
----------------------------------------------	------------

<b>Pyrotec Pyrolyzer System (Gastec Pyrotec System) . . . . .</b>	<b>3-2</b>
-------------------------------------------------------------------	------------

Gastec Pyrotec System configuration . . . . .	3-2
-----------------------------------------------	-----

Measurement principle . . . . .	3-3
---------------------------------	-----

Pyrotube specifications . . . . .	3-3
-----------------------------------	-----

No.840 Pyrotec specifications . . . . .	3-3
-----------------------------------------	-----

<b>Airtec Tube . . . . .</b>	<b>3-10</b>
------------------------------	-------------

Measurement procedure . . . . .	3-11
---------------------------------	------

<b>Smoke and Exhaust Gas Analysis System . . . . .</b>	<b>3-22</b>
--------------------------------------------------------	-------------

<b>Qualitative Analysis System for Multiple Gases (Gastec Polytec System) . . . . .</b>	<b>3-24</b>
-----------------------------------------------------------------------------------------	-------------

Gastec Polytec System configuration . . . . .	3-24
-----------------------------------------------	------

	Page
Polytec I (No.107) .....	3-25
Polytec II (No.25) .....	3-26
Polytec III (No.26) .....	3-27
Polytec IV (No.27) .....	3-28
<b>Toxic Gas Detection System (Gastec TG-1 System)</b> .....	<b>3-30</b>
Gastec TG-1 System configuration .....	3-30
Measurement procedure .....	3-31
Toxic gas determination flowchart .....	3-32
<b>Injection-Type Gas Measurement Systems (No.600 and No.610)</b> .....	<b>3-34</b>
Injection-Type Gas Measurement Systems configurations .....	3-34
Measurement procedure .....	3-35
Injection-type detector tube specifications .....	3-35
<b>Automatic Gas Sampler GSP-300FT-2</b> .....	<b>3-38</b>
<b>Gastec Applied Detector Tube System for Odorant Detector Tube with a Gas Sampler</b> .....	<b>3-65</b>

## **Chapter 4 Gastec Applied Detector Tube System for Long-Term Gas and Vapour Analysis**..... 4-1

<b>TWA Measurement System</b> .....	<b>4-2</b>
TWA Measurement system configuration .....	4-2
Measurement procedure .....	4-3
Dosi-tube specifications .....	4-3

## **Chapter 5 Gastec Applied Detector Tube Systems for Ground or Water Analysis**..... 5-1

<b>Ground Pollutant Analysis System</b> .....	<b>5-2</b>
Ground Pollutant Analysis System configuration .....	5-2
Measurement procedure .....	5-3
Substances to be measured and Gastec standard detector tubes to be used .....	5-4
<b>Sulphides Measurement System (No.330)</b> .....	<b>5-5</b>
No.330 Sulphides Measurement System configuration .....	5-5
Measurement procedure .....	5-6
Total sulphide detector tube specifications .....	5-6
<b>Water Pollutant Analysis Systems (Gastec WPT-132, WPT-133 and WPT-135 Systems)</b> .....	<b>5-9</b>

	Page
Gastec WPT-132, WPT-133 and WPT-135 Systems configurations . . . . .	5-9
Substances to be measured and Gastec standard detector tubes to be used . . . . .	5-10
Measurement procedure . . . . .	5-10
<b>Detector Tubes for Dissolved Substances in Solution . . . . .</b>	<b>5-13</b>
<b>Chapter 6 Gastec Measurement Support Systems . . . . .</b>	<b>6-1</b>
<b>High-Precision Calibration Gas Generators (Gastec Permeaters) . . . . .</b>	<b>6-2</b>
Structure of Gastec Permeater . . . . .	6-3
Gastec Permeaters specifications . . . . .	6-3
Calibration gas examples that can be generated by using a single permeation tube . . . . .	6-4
Diffusion tubes . . . . .	6-5
Calibration gas examples that can be generated by using a single No.3100 or No.3200 diffusion tube . . . . .	6-6
<b>Gas Generation Tube Kit . . . . .</b>	<b>6-7</b>
<b>No.500 Smoke Tester Kit . . . . .</b>	<b>6-8</b>
No.500 Smoke Tester Kit configuration . . . . .	6-8
<b>Chapter 7 Properties of Substances to be Measured . . . . .</b>	<b>7-1</b>
Explanation of the property terms . . . . .	7-2
<b>Literature . . . . .</b>	<b>8-1</b>
<b>Appendices . . . . .</b>	<b>9-1</b>
1. Trouble shooting . . . . .	9-2
2. List of substances to be measured and Gastec detector tubes to be used. . . . .	9-4
3. List of Gastec detector tubes by tube numbers . . . . .	9-16
4. List of synonyms of substances to be measured with Gastec detector tube systems . . . . .	9-23
5. List of substances and their synonyms . . . . .	9-25
<b>Index . . . . .</b>	<b>10-1</b>
